Dive The Best Of Philippines—Negros, Bohol & Cebu

VISAYAS DIVE SAFARI - PHILIPPINES

Special Group Departure

For a diver, the Philippines has just about everything one could ask for. Diving in the Philippines offers a wide variety of marine environments to choose from. Dive on steep walls and offshore pinnacles, critter hunt and night dive on coastal reefs, be surrounded by pelagics or take the opportunity to swim alongside the world's largest fish.

During the Visayas Dive Safari you will see the best dive spots the region has to offer, including Dauin, Apo Island, Siquijor Island, Balicasag Island, Panglao Island, Sumilon Island, Sunken Island and Pescador Island.

The marine sanctuaries that line the Dauin coastline house some of the world's rarest critters competing for the underwater photographer's attention. Whether you are a novice or experienced diver, you will be sure to find some new and exciting species here. All the dive sites are replete with huge numbers of splendid fish; triggerfish, parrotfish, pennant fish, moray eels, surgeonfish, snappers, groupers, Moorish idols, lizardfish, gobies, batfish, lionfish, trumpet fish, pufferfish, filefish, emperors, wrasses, fusiliers and trevallies to name only a few!

Apo Island a jewel in the Philippine Sea, this small island has been a marine protected area since 1982 and is widely regarded as one of the premier dive locations in the Philippines. It is a scuba diver's heaven, its walls and reefs densely covered with an incredible variety of hard and soft corals home to all kinds of marine life in astonishing numbers. At present, the island is home to over 650 documented species of fish and estimated to have over 400 species of corals.

Not far away you will have a chance to dive or snorkel with the whale sharks in Oslob. Amazing experience on every divers wish list.

The Islands of Negros, Bohol and Cebu belong to the coral triangle, home to more than 12,000 species of fish. Be prepared for great service, good visibility, colorful corals, schools of fish, large predators and tiny critters, a great adventure.
